Art in the Garden will make age appropriate garden art projects. Grades 1-3 will make flowers for their gardens out of plates using mandala and radial symmetry in nature in their painting. Grades 4-6 will make woven metal flower wall sculptures, and Grades 6 & up will design metal paint cans with mosaic sculpture to design their very own flower pot.

Plenty of Printmaking students will get to experience a variety of printmaking techniques, using lots of color, creativity, and different art materials. Students will also get to create endless ideas and possibilities through monoprints.

Guitar Making will use materials common to our everyday to make an amazing musical instrument.

Cooking 4 Kids will feature age appropriate snack and meal preparation as well as nutritional information to make wise food choices.

Tae Kwon Do students will learn basic skills and techniques from Tae Kwon Do including self defense, kicking, and a beginning form.

Painting like the Greats will focus on a different famous artist and their palette each day.

Learn to Sew Pillow & Pal will teach students the basics of sewing with a machine as well as by hand to make themselves a basic pillow as well as a stuffed toy or accessory item.

French for Kids will allow your child to travel to France with out leaving home. Explore French language and culture through song, rhyme, games and so much more.

Paper Art will teach students how to make paper as well as making art projects out of paper mache and origami for example.

Legos for the Littles will allow students to use their imagination to design all sorts of fun lego creations.

Weird Science will show how science can be messy and fun. Eat bugs, do unique experiments out of household materials.

Learn to Bowl will feature daily instruction by a bowling professional on how to bowl, the rules of the lanes, how to keep score and more. Shoes and lane fees are included. Bowling will take place at the dome lanes located right across from the university.

Fitness Fun offers students an opportunity to be active and participate in various games and events in an effort to promote fitness in a fun setting.

Warrior Week will test and improve your strength and flexibility on land and in the water. This week will be full of fun and healthy challenges as you prepare to compete in an obstacle course on the final day of class. All campers will need to bring a swimsuit and towel along with exercise shoes and attire each day.
Please check marinette.uwc.edu for more information as well as course descriptions and updates.
